Gets Start in Morrisville

In his speech at the Dairymen and Sugar-makers Convention in Burlington last week, Dean J. L. Hills spoke briefly of his long association with the organization. He said that this was the 33rd annual meeting of their organizations which he had attended and the 31st which he had addressed. He told of the annual meeting 30 years ago at Morrisville, when the gathering was so small that it could be held in one of the churches.

Honor of Twelfth Birthday

Herewith is given Theodore Roosevelt's opinion of George K. Cherrie, the noted explorer and collector for the American Museum of Natural History, who will give an illustrated lecture at the Town Hall, Morrisville, on Friday evening, Jan. 20. "I speak of Cherrie with full knowledge. He and I were together in the descent and exploration of what was then the largest unknown river in the world. I know at first hand all about his capabilities; I know from other men his past history. There is no man in the world whom I would sooner trust in a tight place, where absolute gameness, absolute loyalty, and thorough ability to take care of himself were needed, than Cherrie. There is no one I would rather have by me in a tight place and I have had him by me in several tight places. He has had an extraordinary career of adventure in South America. He is one of the best explorers, one of the most nifty men in all dangers, whether they come from the elements, from wild beasts, or from wilder men. I doubt if any better man than my friend and comrade, Cherrie, could be gotten to give the kind of lecture to which any American interested in exploration and adventure and the life of the wilderness ought to desire to listen."
